

INFORMATION ABOUT RECEPTION REPORT

The JJY is a radio wave to supply frequencies and Japan Standard Time throughout Japan. National Institute of Information and Communications Technology Applied Electromagnetic Research Institute(NICT) Issues a Verification Card(QSL Card) to the person who sent a Reception Report. Please let us know your reception details.

Reception Report should be sent by **Air mail** or **Sea mail**. **Not in email**.

We need all these 7 items. If anyone of these is missing, your reception report is invalid.

- ✓ Who? Name of person who received the frequency.
- ✓ Where? Name of town, state or the region, and the country.
- ✓ When? The date and time.
- ✓ Frequency We transmit two frequencies. Which one did you receive?
- ✓ Equipment A model of a receiver and a shape of an antenna.
- ✓ SINPO Signal, Interference, Noise, Propagation, and Overall
- ✓ Morse Code Did you check the Morse Code dispatched at 15 and 45 minutes every hour?
If you did, please write down that clearly. If you didn't, you can't get a QSL card.

Air mail or Sea mail is required. Not in email.

If you are **outside Japan**, please enclose:

- ✓ **An envelope with your name and address on it.**
- ✓ **International Reply Coupon (IRC) for return postage.**

If you are **in Japan**, please enclose :

- ✓ **An envelope with your name and address, and with a 84 yen stamp. (after Sep.15, 2019)**
